About

I'm a 2nd-year CSIT student at REVA University, building my programming and problem-solving skills through coursework and hands-on projects. I'm currently learning C, Python, Data Structures, Git, and GitHub, while exploring software development and technology. I enjoy working on practical projects and improving my technical skills through continuous learning. I'm looking for opportunities to collaborate on projects, gain practical experience, and grow as a software developer.
